# WMCA Cancer Academy

**Do you come into contact with cancer patients as part of your role? If so, this West Midlands Cancer Alliance development programme is for you.**

If you would like to learn more about how to support your patients journey including diagnosis, treatment, and support of patients, the WMCA Cancer Careers & Education Programme will be for you!

Covering modules such as chemotherapy, surgery, genomics, psychological support, communication skills and others, you will complete quizzes, produce reflective writing pieces. Centered around the capabilities and levels of practice within the ACCEND framework, our ePortfolio offers a digital, interactive version of the framework which allows you evidence your learning achievements.
